

# NRCS Assistance Available for Syrup Producers

Capitol, Guyan, and Southern Conservation Districts

United States Department of Agriculture  
Natural Resources Conservation Service

## Environmental Quality Incentives Program (EQIP) Southern West Virginia

Forest Stand Improvement (FSI) practices geared  
toward syrup production are being offered in

### Capitol, Guyan and Southern Conservation Districts

*Now Accepting Applications!*

#### Program Benefits

*Crop Tree Release increases plant productivity and health for syrup producing trees by increasing crown size and removing less desirable species.*

*Brush Management improves overall forest composition through the control of invasive species and reduces pressure on more desirable trees and plants.*

*Conservation and Forest Stewardship Planning through the WV NRCS and the WV Division of Forestry partnership provides a more holistic approach to woodlot management.*

Guyan Conservation District
