

# Value-Added Producer Grant Program

## General Information

### Program Objective

- To help agricultural producers enter into value-added activities related to the processing and/or marketing of bio-based value-added products.
- To expand markets and increase financial returns to agricultural producers.

### Nationally Competitive Grants Available

- **Planning Grant:** To facilitate economic planning activities to determine the viability of a value-added venture, and may include costs for an independent feasibility study and development of a marketing and business plan.
- **Working Capital Grant:** For operational costs directly related to the processing and/or marketing of the value-added product. Requires a third party feasibility study (FS) and business plan (BP) to implement the project, with two exceptions: (1) FS and BP requirement waived for ANY applicant requesting less than \$50k; or (2) FS requirement waived for an Independent Producer applicant requesting any amount who proposes to expand the market for an existing value-added product they have produced and marketed successfully for two years or more.
- **Example Ineligible Costs:** Land, buildings, equipment, vehicles, R&D, engineering design, agricultural production, crop harvesting, delivery of raw commodity to a processing facility, conflict of interest transactions, and industry-wide feasibility studies.
- **Matching Funds Required:** Must be equal to or greater than the grant amount, without conflicts of interest, and must contribute to eligible value-added project purposes.
