

## Maple Educational and Outreach Programs

With COVID comes opportunities for us to learn about maple, farming and woodlot management from the comfort of our favorite armchair. Where in prior years we would have been traveling far and wide to attend maple events so we could sharpen our skills and keep up to date on research findings, this year they are Zoomed to wherever we may be, and they are (by in large) FREE. November and December events are listed below.

### Maple specific Webinar Series and Courses(green)

Future Generations University, Pen. State, Ohio State, “Out of the Woods Series”

November 17 7:00 – 8:00

Climate Change Impacts & Risks to Southern Maple Production

YouTube: <https://www.youtube.com/watch?v=tCVwDMNG3Kg&t=13s>

Aaron Wilson

December 17. 7:00 – 8:00

Sanitation Session: *A Decade of Tap Hole Sanitation Research & Implications for Sap Collection Systems*, Feat. Aaron Wightman: NY State Maple Specialist and the co-director of the Cornell Maple Program

& *Practical Methods for Sanitizing 3/16” tubing*, Feat. Arthur Krueger: P.E. & Owner of Krueger-Norton Sugarhouse
